Subject: AHA Scientific Sessions 2025 Abstract Notification:[4362788](#)

CAUTION! This email originated from outside of our organization. **DO NOT CLICK** links or open attachments unless you recognize the sender and know the content is safe.

We are delighted to inform you that your abstract, [4362788: Brash Syndrome Requiring Permanent Pacemaker: A Case Report](#), has been accepted for presentation at the American Heart Association's Scientific Sessions 2025, the premier global event in cardiovascular science and medicine. Held November 7-10 in New Orleans. This four-day experience offers unmatched access to groundbreaking research, dynamic learning, and career-defining connections. With expanded content, specialty forums, and interactive innovation zones, it is where the world's leading minds in cardiovascular science shape what's next. **Travel to New Orleans, LA, and registration are required for your participation.**

Your abstract has been accepted for presentation in a Moderated Digital Poster Session, CC.MDP.12 Unseen but Deadly: Recognizing Rare, Reversible, and Rising Cardiovascular Challenges taking place on November 9, 2025 from 3:15 PM to 4:30 PM.

***Note:** If you submitted multiple abstracts, a separate notification will be sent for each abstract. Information about the format of your presentation is included in the invitation via the link.*

Please click the link below to access important information regarding this acceptance and to confirm or decline participation.

The system utilizes your AHA's Professional Heart Daily (PHD) login. The email where you received this invitation is the email we have on record for you in PHD.

If you are unable to view the invitation in your portal, please let us know what email you utilize with AHA so we can fix the issue.
